SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

Page: 1/11

1

1.1

Revision: 12.10.2011 Date: 12.10.2011

Product Name SUNPOR Lambdapor® **Chemical Name** Expandable Polystyrene (contains the blowing agent pentane, graphite and a polymeric flame retardant) FR-EPS, Flame Retardant Expandable polystyrene, poly(phenylethene). Synonyms Trade name SUNPOR Lambdapor® CAS No. None assigned. EINECS No. Polymer exempt. **REACH Registration No.** Polymer exempt. 1.2 Relevant identified uses of the substance or mixture and uses advised against Identified use(s) Used primarily for the manufacture of foamed thermal insulation and packaging. Uses advised against None known. 1.3 Details of the supplier of the Safety Data Sheet SUNPOR Kunststoff GmbH Stattersdorfer Hauptstraße 48 Österreich - 3100 St. Pölten Telephone ++ 43 2742 291 0 FAX ++ 43 2742 291 40 eMail office@sunpor.at 24 h Emercency Contact Services Emergency Phone No. National Chemical Emercency Centre (NCEC) Oxfordshire, UK ++ 44 208 762 8322 2 **SECTION 2: HAZARDS IDENTIFICATION** Classification of the substance or mixtur 2.1 Directive 67/548/EEC & Directive In use, may form flammable/explosive vapour-air mixture. 2.1.1 1999/45/EC 2.1.2 Regulation (EC) No. 1272/2008 In use may form flammable/explosive vapour-air mixture. (CLP) 2.2 Label elements 2.2.1 Label elements According to Directive 67/548/EEC & Directive 1999/45/EC Product Name SUNPOR Lambdapor® Hazard Symbol None. **Risk Phrases** R18: In use, may form flammable/explosive vapour-air mixture.

ACCORDING TO EC-REGULATIONS 1907/2006 (REACH), 1272/2008 (CLP) & 453/2010 SDS SUNPOR Lambdapor® [english] Version B¹

Revision: 12.10.2011

Safety Phrases S3/7: Keep container tightly closed in a cool place. S9: Keep container in a well-ventilated place. S16: Keep away from sources of ignition - No smoking. S33: Take precautionary measures against static discharges. According to Regulation (EC) No. 1272/2008 (CLP) 2.2.2 Label elements Product Name SUNPOR Lambdapor® Hazard Pictogram None. Signal word(s) None. Hazard statement(s) EUH018: In use may form flammable/explosive vapour-air mixture. Precautionary statement(s) P210: Keep away from heat, sparks, open flame, hot surfaces - No smoking. P233: Keep container tightly closed. P243: Take precautionary measures against static discharge. P403 + P235: Store in a well-ventilated place. Keep cool. 2.3 Other hazards Product releases pentane, a flammable hydrocarbon.

3 SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Polystyrene (CAS No. 9003-53-6), containing pentane isomers as blowing agent, graphite and a brominated flame retardant (polymer)

May cause irritation to skin and eyes.

3.1 Polymer

4.1

4 **SECTION 4: FIRST AID MEASURES**

Description of first aid measures

Remove persons affected by vapour to fresh air. If symptoms persist, obtain medical attention. Inhalation Skin Contact Wash skin with soap and water. If symptoms persist, obtain medical attention. Eye Contact Irrigate with eyewash solution or clean water, holding the eyelids apart, for at least 15 minutes. If symptoms persist, obtain medical attention. Ingestion Unlikely to be hazardous if swallowed. IF SWALLOWED: Do not induce vomiting. Obtain medical attention immediately if ingested. Inhalation: Headache, Dizziness. 4.2 Most important symptoms and effects, both acute and delayed Eyes and Skin Contact: Redness, Irritation. Indication of immediate 4.3 Unlikely to be required but if necessary treat symptomatically. medical attention and special treatment needed

SECTION 5: FIRE-FIGHTING MEASURES 5

Product is not classified as flammable, but will burn on contact with flame or exposure to high temperature (see Section 9).

5.1	Extinguishing Media		
	Suitable Extinguishing Media	Water spray, foam, dry powder or CO ₂ .	
	Unsuitable Extinguishing Media	Do not use water jet.	
5.2	Special hazards arising from the substance or mixture	This product may give rise to hazardous fumes in a fire. Hazardous Decomposition Product(s): Carbon monoxide, Carbon dioxide, styrene, aliphatic hydrocarbons and traces of hydrogen bromide can be produced.	
5.3	Advice for fire-fighters	Fire fighters should wear complete protective clothing including self-contained breathing apparatus. Chemical protection suit. Keep containers cool by spraying with water if exposed to fire. Flammable concentrations of pentane may accumulate on storage in closed containers.

Revision: 12.10.2011

6 SECTION 6: ACCIDENTAL RELEASE MEASURES 6.1 Environmental precautions Prevent entry into drains. 6.2 Methods and material for If safe to do so: containment and cleaning up Small spillages: Sweep up and shovel into waste drums or plastic bags. Transfer to a lidded container for disposal or recovery. Large spillages: Use vacuum equipment suitable for use in hazardous locations for collecting spilt materials, where practicable. Transfer to a lidded container for disposal or recovery. 6.3 Reference to other sections See Also Section 8 and 13.

7 SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling
Provide adequate ventilation, including appropriate local extraction. Do not breathe fumes/vapour. Avoid generation of dust clouds. Should be kept away from naked flames and other sources of ignition. Extinguish any other fire. Remove or make safe all sources of ignition. Avoid friction, sparks, or other means of ignition. The electrical system should be spark-free. When using do not smoke. Take precautionary measures against static discharges. Ensure adequate earthing. Avoid release to the environment. Permission must be obtained from the appropriate Local Authority before disposing of waste material.

Process Hazards Take precautionary measures against static discharges. To avoid the buildup of static electric charge, and also the formation of an explosive pentane-air mixture, containers should be fully emptied when processing. Line velocity should not exceed 8m/s during normal pumping operations. All parts of the plant and equipment should be electrically bonded together and connected to earth. Electrical continuity should be checked at regular intervals. Antistatic clothing and footwear should be used.

7.2 Conditions for safe storage, including any incompatibilities
Flammable concentrations of pentane may accumulate on storage in closed containers. Before unloading freight containers, keep doors open and ventilate for one hour.
Keep container tightly closed, in a cool, well ventilated place.
Keep away from direct sunlight and other sources of heat or ignition. Keep away from rain and moist conditions.
Bulk: Keep under inert gas.

Open top tanks should be covered with an open rigid grid.

Take precautionary measures against static discharges. The electrical system should be sparkfree. The product is usually supplied in fibreboard octabins. It is recommended not to double stack octabins.

7.3

•	3/11					
Specific design for storage rooms or vessels		Storage rooms should be kept cool to reduce pentane release, and provided with a suitable ventilation system to prevent accumulation of pentane. In addition, safety devices to alert any build up of pentane/air explosive mixtures should be used. The electrical system should be spark-free. Equipment to be installed in potentially explosive atmospheres should conform to the requirements of ATEX Directive 94/9/EC.				
	Storage Temperature	Ambient.				
	Incompatible materials	Avoid storing or handling in conjunction with UN Class 1 explosives.				
	Suitable containers	Steel (drums).				
	Specific end use(s)	Used primarily for the manufacture of foamed thermal insulation and packaging.				

8 SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters

8.1.1 Occupational Exposure Limits

SUBSTANCE	CAS No.	LTEL (8 hr TWA ppm)	LTEL (8 hr TWA mg/m³)	STEL (ppm)	STEL (mg/m³)	Note
Pentane (mixed isomers)	109-66-0 78-78-4	600	1800	-	-	WEL

WEL: Workplace Exposure Limit (UK HSE EH40)

- 8.1.2Biological limit valueNot est8.1.3PNECs and DNELsNot est

Not established. Not established.

8.2 Exposure controls

8.2.1 Appropriate engineering controls

Use only in well-ventilated areas.

8.2.2 Personal protection equipment

Eye/face protection

Safety spectacles.

Skin protection (Hand protection/ Other)

Wear suitable gloves. Recommended: Impervious gloves (EN 374). Breakthrough time of the glove material: refer to the information rovided by the gloves' producer. Wear suitable protective clothing. Antistatic safety shoes or antistatic boots.

Respiratory protection An approved dust mask should be worn if dust is generated during handling. Thermal hazards Not applicable. European Community and local provisions on Volatile Organic Substances (VOC), are to be **Environmental Exposure** Controls fulfilled when they are applicable to the EPS industry.

9 SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

These properties are the most relevant.

9.1 Information on basic physical and chemical properties

Other information	None.
Oxidising properties	Not oxidising.
Explosive properties	In use, may form flammable/explosive vapour-air mixture.
Viscosity (mPa.s)	Not established.
Decomposition Temperature ($^{\circ}$ C)	Not available.
Octanol/water)	
Partition Coefficient (n-	Not available.
Solubility (Other)	Soluble in aromatic hydrocarbons, halogenated solvents and ketones.
Solubility (Water)	Insoluble.
Softening Point (°C)	70-75℃ (beads expand with evol ution of pentane).
Bulk Density (g/ml)	circa. 600kg/m ³ @ 20°C.
Density (g/ml)	1020–1050kg/m ³ @ 20°C (beads).
Vapour Density (Air=1)	2.5 (Pentane).
Vapour Pressure (mm Hg)	Not available.
Flammability (solid, gas)	In use, may form flammable/explosive vapour-air mixture.
Evaporation rate	Not available.
Auto Ignition Temperature (°C)	285°C (Pentane) (ASTM E-659).
Lower Explosive Limit (LEL)	1.3% (v/v) (Pentane).
Upper Explosive Limit (UEL)	7.8% (v/v) (Pentane).
Flash Point (°C)	< -50℃ (Pentane).
Boiling Point (°C)	Not available.
Melting Point (°C)	Not available.
pH (Value)	Not applicable.
Odour Threshold (ppm)	Not established.
Odour	Perceptible odour.
Colour	Gray.
Form	Solid, Small spherical beads.

9.2 Other information

ACCORDING TO EC-REGULATIONS 1907/2006 (REACH), 1272/2008 (CLP) & 453/2010 SDS SUNPOR Lambdapor® [english] Version B^1

Revision: 12.10.2011

10	Reactivity	
10.1	Stable under normal conditions.	Chemical stability
10.2	Stable under normal conditions.	Possibility of hazardous reactions
10.3	In use, may form flammable/explosive vapour-	Conditions to avoid
10.4	Keep away from heat, sources of ignition and direct sunlight.	Incompatible materials
10.5	Avoid storing or handling in conjunction with UN Class 1	Hazardous Decomposition Product(s)
10.6	Pentane, styrene monomer, carbon monoxide, hydrogen	Release of pentane increases with temperature. (beads expand with evolution of pentane).

11 SECTION 11: TOXICOLOGICAL INFORMATION

This assessment is based on information available on similar products.

11.1 Information on toxicological effects

11.1.1 Polymer

	Acute toxicity	
	- Inhalation	The product can evolve pentane vapours, which at high concentrations may lead to dizziness, headache and anaesthetic effects.
	- Ingestion	Unlikely to be hazardous if swallowed.
	- Skin Contact	No data.
	- Eye Contact	No data.
	Irritation	May cause irritation to skin and eyes.
	Corrosivity	No data.
	Sensitisation	No data.
	Repeated dose toxicity	No data.
	Carcinogenicity	No data.
	Mutagenicity	No data.
	Toxicity for reproduction	No data.
11.1.1	Other information	None.

ACCORDING TO EC-REGULATIONS 1907/2006 (REACH), 1272/2008 (CLP) & 453/2010 SDS SUNPOR Lambdapor® [english] Version B¹

12 SECTION 12: ECOLOGICAL INFORMATION

This environmental hazard assessment is based on information available on similar products.

Potential.

This product contains substances which are classified as dangerous for the environment. However recent studies on aquatic organisms have shown that EPS-beads, while containing these substances, do not need to be classified for environmental hazard.

12.1	Toxicity	Aquatic invertebrates: EC50 (48 h) > 100 mg/l, Daphnia magna (OECD Guideline 202, part 1, static) Nominal concentration. The product has low solubility in the test medium. An eluate has been tested. No toxic effects occur within the range of solubility.
		Aquatic plants: EC50 (48 h) > 100 mg/l, EC50 (72 h) > 100 mg/l (growth rate), Desmodesmus subspicatus (OECD Guideline 202, part 1, static) Nominal concentration. The product has low solubility in the test medium. An eluate has been tested. No toxic effects occur within the range of solubility.
12.2	Persistence and degradability	The product itself has not been tested. In accordance with the required stability the product is not readily biodegradable. The statement has been derived from the structure of the product. It can be largely eliminated from the water by abiotic processes, e.g. mechanical separation.
12.3	Bioaccumulative potential	The product has low potential for bioaccumulation.
12.4	Mobility in soil	The product is essentially insoluble in water. Expandable polystyrene sinks in fresh water, may float or sink in sea water.
12.5	Results of PBT and vPvB assessment	See Section: 15.1.1.
126	Other adverse effects	Pentane has very low Global Warming Potential (<0.00044) and zero Ozone Depletion

13 SECTION 13: DISPOSAL CONSIDERATIONS

Surplus, unused, old beads may still contain residual pentane. Therefore product has to be treated using all the safety measures in place for the fresh material. See Also Section 7.

13.1 Waste treatment methods
 Recover or recycle if possible. Remove all packaging for recovery or disposal. Normal disposal is via incineration operated by an accredited disposal contractor.

13.2 Additional Information

Dispose of contents in accordance with local, state or national legislation.

16 SECTION 16: OTHER INFORMATION

This Safety Data Sheet was prepared in accordance with EC Regulation (EC) 1907/2006 (REACH), 1272/2008 (CLP) & 453/2010.

The following sections contain revisions or new statements: 1-16.

LEGEND

LTEL	Long Term Exposure Limit
STEL	Short Term Exposure Limit
DNEL	Derived No Effect Level
PNEC	Predicted No Effect Concentration
PBT	Persistent, Bioaccumulative and Toxic
vPvB	very Persistent very Bioaccumulative

Directive 67/548/EEC & Directive 1999/45/EC

Risk Phrases and Safety Phrases R12	Extremely flammable.
R65	Harmful: may cause lung damage if swallowed.
R66	Repeated exposure may cause skin dryness or cracking.
R67	Vapours may cause drowsiness and dizziness.
R51/53	Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
R50/53	Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
